Presidio County Gives \$10,500 For Red Cross

Marfa, Texas, June 28.—Presidio county's allotment for the Red Cross war fund was \$10,500, but the various committees assigned to the work

around, but that has now become a municipal thing; it started the day nursery, but that is now assumed by the Mary Crane nursery. It cooperates with the united charities, the health department, the juvenile courts, the immigrant protection bureau, the practical housekeeping center, consumers league, the school of civics and philanthropy, and other organizations, and has done much in investigation and research along the lines of infant mortality, vaccine, story of children's reading, study of the Greek colony and typhoid fever.

This wonderful settlement is supported by incomes and donations, each trustee giving a certain amount. The cooking school, gymnasium and coffee house are self-supporting. No religious instruction is given—the faculty of such a plan is understood at first glance, because of the different nationalities and beliefs—other than in a broad sense.

The ideal social club and Odd Fellows have arranged a dance for Wednesday night, in the I. O. O. F. hall, Yuleta country club on Wednesday night. Part of the receipts will be for the benefit of the Grove circle, but the remainder will be for the Red Cross campaign committee. Winchester Cooley has donated the clubhouse for the evening raised \$10,500 in five days, and halted only when advised that the amount was over-subscribed. This announcement was made today by H. M. Pennington, secretary of the Presidio county Red Cross war funds.

"Our Boys Over There"

Our Red Cross drive is over. The victory now is won. Our hearts are as light as a feather because of this work well done. We've toiled and we've tramped together in the glare and heat of the day. To help our dear boys in the trenches who fight in the thick of the fray. The work has been one of great pleasure. A labor of love for us and for freedom. Our boys, brave boys, everywhere. May God in His infinite mercy protect them who are overseas the sea. As it tells of the love of our country. For defenders, wherever they be. May He with His love and protection. While El Paso the land of bright sunshine. Wants many a kiss and a prayer. Worker on Team No. 12.

Summer Days At Santa Monica

One of the most attractive of the Southern California beaches is that comprising the Santa Monica-Ocean Pier. At Ocean Park is a 500-foot pier affording diverting games and amusements along each side. The Santa Monica Municipal band plays at the entrance of this pier every afternoon and evening during the summer. On the pier, where the water is the dancing pavilion, while a nearby section is devoted to the auto-park, where it is possible to rent the latest model cars and get all the sensations of running an automobile.

Farther to the north is the Goodwin pier, and the magnificent concrete municipal pier which extends over the ocean nearly half a mile. This pier is especially favored by the disciples of Isaac Walton and many a record catch has been made there.

Santa Monica and Ocean Park are both noted for the home-like atmosphere. There are plenty of comfortable cottages and apartments and hotel accommodations to be had at extremely moderate prices. The bathing is unexcelled. The surf has just sufficient to be delightful. A novelty added this last season and which is proving very popular this season, is the sport fish—upon which the bathers mount and propel themselves beyond the breaker line where they can ride at ease upon the back of the fish. The fish are propelled by them shoreward can sweep in with the breakers.

Santa Monica and Ocean Park district affords a hundred miles of magnificent macadamized boulevards for motoring through the most charming scenery and valley scenery. There is plenty of opportunity for mountain hikes near by; while the tennis courts and the golf course can enjoy their game at the beautiful Brentwood Country Club—Adv.

Here's a Real Hair Grower That Shows Results in Few Days

If your hair is thinning out, prematurely gray, brittle, lifeless, full of dandruff and your head itches like mad it's a pity you don't use the dangerous dandruff germ is busy on your scalp and quick action must be taken to save your hair. You have and start a new growth. Don't wait until the hair root is dead, for then nothing can be done. Use the genuine hair restorer about four ounces of Parisian sage and apply as directed—don't wash your hair. The hair restorer you could use that's any better. It was Dr. Sangerbush, the famous Parisian sage, that discovered the cause of dandruff and falling hair are caused by a microbe—then came the discovery of the value of the genuine Parisian sage (liquid form) to destroy this germ and prevent further loss of hair and the formation of dandruff. You will surely be delighted with the first application, for your hair will be bright-looking, all itching ceases and your scalp feels cool and comfortable. A few massages with Parisian sage are all that are usually needed to destroy the germ that cause dandruff to form, and very soon you should be able to see the new hair coming out. It is a favorite dressing with discriminating women because it is delicate, perfumed, does not soil and streaks the hair and makes it lustrous, soft and fluffy. Be sure you get Parisian sage (Groux's), for this brand has the guarantee of perfect satisfaction or money returned printed on every package. Kelly & Pollard's Drug Store can supply you.—Adv.

NOTE LEVERAGE ROOFLESS

MOUTH CLEAR LEVERAGE NILL

The Advantages of this Wonderful Roofless Plate

1. As the part next to the gum is of very soft rubber, it gives in chewing, as the natural teeth, thereby enabling you to eat food impossible with the old style plate. You simply grind your food with the old style plate. You cannot chew it.

2. As the roof of the mouth is clear, there is nothing to rest on the hard bone in the mouth. It can be put in immediately after extraction and the plate settles with the gums as there is no hard ridge in the roof of the mouth to hold it back. And for the same reason as you can readily see, it cannot possibly "rock." When these plates are put in immediately after extraction and "settle" with the gums, of course there is no plate in the world can come anywhere near the fit of these.

3. Naturally they can be made to fit any mouth—and mouths that cannot wear old style plates—as the roof deep, shallow, flat, has not to be taken into consideration at all.

4. They have a better suction—soft rubber as against hard.

5. Comfort, taste, freedom from voice interference, and many other advantages that will suggest themselves to you if you will look at the diagram. Teeth extracted in the morning, plates delivered the same day.
